

DERT FUND

DRYCLEANING ENVIRONMENTAL RESPONSE TRUST

ANNUAL PROGRAM REPORT 2011

MISSOURI
DEPARTMENT OF
NATURAL RESOURCES

HISTORY

In 2000, Senate Bill 577 established the Drycleaning Environmental Response Trust Fund, or DERT Fund, and Section 260.960, Revised Statutes of Missouri, or RSMo, authorized it. The DERT Fund, provides funding for the investigation, assessment and cleanup of releases of chlorinated solvents from dry cleaning facilities. The DERT Fund is a state fund and is administered by the Missouri Department of Natural Resources' Hazardous Waste Program according to rules published by the Hazardous Waste Management Commission. The laws and regulations governing the DERT Fund are found in Sections 260.900 to 260.965 RSMo and 10 Code of State Regulations 25-170.010 to 10 CSR 25-17.170 respectively. In 2011, Senate Bill 135 extended the expiration date of the DERT Fund from Aug. 28, 2012 to Aug. 28, 2017.

Operators of active dry cleaning facilities are required to register with the Missouri Department of Natural Resources, as outlined in Section 260.915 RSMo. Each active and operating dry cleaning facility is required to pay an annual registration surcharge based upon the number of gallons of chlorinated solvents used during the calendar year, as outlined in Section 260.935 RSMo. This includes coin-operated dry cleaning facilities. Laundry facilities located in prisons, government entities, hotels, motels and industrial laundries are specifically exempt from the requirements of this statute. All solvent suppliers that sell or provide chlorinated solvents to a dry cleaning facility are required to pay the solvent surcharge fees to the department.

Section 260.955 RSMo, requires the department to provide an annual report to the General Assembly and the governor regarding:

- Receipts of the fund during the preceding calendar year and the sources of the receipts.
- Disbursements from the fund during the preceding calendar year and the purposes of those disbursements.
- The extent of corrective action taken during the preceding calendar year.
- The prioritization of the sites for expenditures from the fund.

DISBURSEMENTS FROM THE DERT FUND

Expenditures from the fund are used to:

1. Reimburse participants for the costs of addressing releases of chlorinated solvents from dry cleaning facilities. Participants are liable for the first \$25,000 of eligible cleanup related costs as a deductible.
2. Administer the program by collecting the surcharges and guiding and assisting the cleanup activities.

Table 1 describes the expenditures from the fund, which were prohibited until, on or after July 1, 2002, by Section 260.925 RSMo. Reimbursements for eligible environmental cleanup costs were not made until the regulations went into effect on May 30, 2006.

⁽²⁾ RSMo, Section 260.925 prohibited expenditures from the DERT Fund until on or after July 1, 2002.

⁽³⁾ House Bill 1115, Section 15.220, RSMo, authorized a transfer of \$1,289 out of the State Treasury on May 6, 2002, chargeable to various funds, such amounts as are necessary for allocation of costs to other funds in support of the state's central services, to the General Revenue Fund.

⁽⁴⁾ Fringe amount includes OASDI, Retirement Sys, Deferred Comp, MCHCP, Cost Allocation Plan (OA), Cost Allocation (MoDNR), State Office Bldg M&R, etc.

⁽⁵⁾ Reimbursements were not made until the regulations went into effect on May 30, 2006.

RECEIPTS TO THE DERT FUND

The Hazardous Waste Program is responsible for the collection of all applicable surcharges from dry cleaning facilities and solvent suppliers. There are two main sources of revenue for the fund. The first is a dry cleaning facility annual registration surcharge paid by owners and operators of dry cleaning facilities (\$500, \$1,000 or \$1,500 based on chlorinated solvent used during the calendar year). The second is a solvent surcharge paid by the solvent suppliers on a quarterly basis of \$8 per gallon of perchloroethylene, trichloroethylene and other chlorinated solvents sold.

Table 3 describes the surcharge collections. The collection of the registration surcharges began on April 1, 2001. The collection of the solvent surcharge began with the April 1, 2001 to June 30, 2001 quarter.

PRIORITIZATION OF SITES FOR EXPENDITURES FROM THE FUND

IO CSR 25-17.140 allocates DERT Fund monies to prioritized sites in the following proportions: high priority sites: 60 percent; medium priority sites: 30 percent; low priority sites: 10 percent. In any fiscal year, if the funding allocation in any priority category is not used, those funds may be reallocated to other priority categories, starting with any high priority sites and followed by medium and then low priority sites.

Sites applying to the program must submit the results of one soil, groundwater or surface water sample that exhibits contamination of dry cleaner solvent that is in excess of the department cleanup levels. The initial assessment will allow the department to determine the eligibility of the site in the fund. Some sites will provide enough information during the application process to receive a ranking score. Other sites will require additional information before a ranking score can be determined.

If the site has not provided enough information to have a ranking score determined, the department will direct the owner or operator to conduct the necessary assessments to determine a ranking score. The ranking score is based on such factors as environmental contamination, potential economics, potential receptors, risk based cleanup parameters, site history, threat to drinking water sources, threat to off-site properties, etc. A copy of the prioritization form is available on the department's DERT Fund website at www.dnr.mo.gov/env/hwp/dert/hwpvcp-dryclean.htm.

On May 30, 2006, the DERT Fund began accepting applications for enrollment into the fund for oversight and reimbursement of investigation and cleanup activities. By the end of 2011, the fund had received applications for 38 sites. Five of these sites received a certification of completion letter from the Brownfields/Voluntary Cleanup Program and enrolled into the fund for reimbursement of eligible costs. Fourteen of the 38 sites transferred from the BVCP to the DERT Fund during 2006.

By the end of 2011, the DERT Fund issued 10 certification of completion letters and reimbursed \$1,619,889 in eligible costs to participants (See Table 1).

COMPLIANCE WITH SURCHARGES

The two main sources of revenue for the fund are the dry cleaning facility annual registration surcharge and the solvent surcharge. State law requires that owners and operators of dry cleaning facilities pay the annual registration and solvent suppliers pay the solvent surcharge on quarterly basis.

When a facility or solvent supplier is not in compliance with the law, DERT Fund uses the department's conference, conciliation and persuasion process to return them to compliance. In 2006, the department's Hazardous Waste Program began referring facilities and solvent suppliers that continued to fail compliance to the Attorney General's Office.

Active and abandoned dry cleaners eligible for the fund must be in compliance with all applicable environmental laws in order to receive funding for environmental cleanup from the fund. Consequently, it is in everyone's interest to assist businesses in returning to compliance with the law so they are covered by the fund.

On Sept. 1, 2008 the DERT Fund began notifying the registered solvent suppliers of the active dry cleaning facilities that have not paid their required registration surcharges. According to 10 CSR 25-17.030(2)(G) "a solvent supplier shall not provide dry cleaning solvents to an active dry cleaning facility that has not paid its annual dry cleaning facility registration surcharge."

A solvent supplier who knowingly supplies solvent to a dry cleaning facility that is not in compliance with payment of the surcharges will be in violation of the above regulation. The DERT Fund also posts a listing of these dry cleaning facilities on its webpage similar to that for solvent suppliers who do not pay the required solvent surcharges.

Table 6 indicates the compliance rate for annual dry cleaning facility registration surcharges. Failure to pay the registration surcharges represents approximately 90 percent of the violations that occur in the DERT Fund.

OUTREACH ACTIVITIES

The department has additional information, publications, forms and answers to questions about the fund available on the Web at www.dnr.mo.gov/env/hwp/dert/hwpcp-dryclean.htm. The department also distributes the DERT newsletter to dry cleaning facilities and solvent suppliers. The newsletter keeps the regulated community up to date on issues involving the industry, the DERT Fund and cleanup efforts at active and abandoned dry cleaner sites.

The department is a member of the State Coalition for the Remediation of Drycleaners. The coalition is comprised of states that have formal dry cleaner cleanup programs. The U.S. Environmental Protection Agency's Technology Innovation Office funds this coalition. The coalition conducts conference calls every other month and holds an annual meeting to discuss issues related to dry cleaner program administration and technical site investigation or cleanup topics. The coalition serves as an invaluable asset for Missouri as the department manages the fund and provides oversight of assessments and cleanup of dry cleaner sites.
